Payment Options

Dental treatment is an excellent investment in an individual's medical and psychological well-being. We understand that patients have different needs when fulfilling their financial obligations, so we are pleased to offer the following payment options:

- **CareCredit**
CareCredit is a third party financing program (based on credit approval), through which we are able to offer revolving charge accounts for patients with no dental insurance coverage. Should you be interested in this option, an application can be submitted by our office online or via phone. Upon approval, you may choose an interest-free, or an extended payment option.
- **Non-Insurance Payment in Full (for treatment totaling \$1,000.00 or more)**
For patients with no dental insurance, or for treatment done that will not be covered by insurance, we offer a bookkeeping courtesy discount of 5% when **payment in full**, by cash or check, is received at the time of the appointment. A discount of 3% will be applied if a credit or debit card is used as payment in full. We accept Visa, MasterCard, and Discover. ***These discounts do not apply to treatment being financed through CareCredit or treatment that does not total \$1,000.00.***
- **Office Payment Plan**
Any treatment involving multiple appointments to complete (i.e. crowns, bridgework, dentures/partials) may qualify for one-half (1/2) payment of total fees when treatment begins. The remaining balance is due upon the completion of treatment. *No discount will be applied with this office payment plan.*

Please be advise that all payment arrangements must be in place prior to treatment; otherwise, payment in full with cash, check, or credit card is due at the time of your appointment.

***Note: Insurance coverage is only an estimation. Patient/insured is responsible for all treatment not covered by insurance.**
